Subject: [EXTERNAL]double vision bar

STOP! External Message. Think before you click.

We've gone to countless meetings. Nothing gets done for 3 years. It's been nothing but Misery Living next to this bar The constant police contact and threats from the owner of the bar Our neighborhood looks like a slum. Every person that lives on lumbard avenue Has been threatened with violence by either the owner in the morning that smokes Outside or the biker gangs , We've gone to the mayor the mayor's liaison. Explored every avenue we could And the committee is letting our community down. The police are letting us be harassed and Again , every person living on lumbard has been assaulted with violence by Kevin coey double vision owner. Every day of the week, you are awakened by screaming people. Gunshots or motorcycles tearing down the streets and the sidewalks leaving black marks the police do nothing. We stopped coming to the licensing meetings Because they refuse to look at our evidence , our videos or hear a neighbor begging for help from this. Imagine trying to raise 2 kids for high school and get called a faggot in front of them very morning you take them to school by they women outside the bar , Imagine your kids pacing the house at 3 o'clock in the morning because they're afraid of the gang violence outside. While the owner sits parked in a vacant field with his bright beams on your house agitating and aggravating the situations. Imagine.

Not wanting to turn down the street. You live on and not wanting to even be on your own property Because of constant harassment and violence from the bar. And its owner. Imagine living in hell. In fact, I invite you to drive down lumbard Avenue today. Turn off of Douglas onto lumbard and look at all the trash from the bar everywhere. It's Disgusting the amount of glass garbage and trash From sidewalk to the roads. Children don't play outside in our neighborhood Because they can't the preteen girls are harassed by bikers. Whenever we call the police or the authorities because of the bar the owner comes outside and yells things towards the neighborhood and uses his drunken patrons as weapons to "get even" with us . When will somebody care? When will somebody help?
