The estimate is that the Developer will receive \$2,900,961 in TID increment capture rebates; while the City is expected to get back an estimated \$322,324 during the 11-year capture life of the TID. The REC Fees are expected to cost \$50,500, which is budgeted in the FY2020 I.G. Funds Budget. The cost of the water-line replacement In Clark Street is estimated at \$275,000 and will be paid by the Water utility Capital budget, as included in FY2020. The BCPL Loan will cost the City nothing except staff time, since all repayment of debt service will be made by the Developer. Following TID closure, the project is expected to produce at least \$184,500 in new yearly property taxes to the City.
