Al Stanek:

CITY ENGINEER

We recently opened a new restaurant and a cabinetry shop at 1526 Washington Avenue. Parking is very limited and we would like to request the east side of the access road that leads down to the parking lot behind our building.

Cars currently park there for extended periods of time and we would prefer that the closet space in the area be designated for elderly/handi additional 3 or 4 metered spaces be provided. We also might be interested in a loading zone space for our delivery vehicle if that is possible.

Thank-you for your consideration of this request. I would be willing to attend any meetings required to get this problem resolved.
