Mayor John Dickert
and the Common Council
Racine, WI

Ladies and Gentlemen:

I wish to meet with the Public Works and Services Committee regarding a change to the special event policy to include sidewalks.

“Any group or individual, who will be holding an event, that will go through, or on, any city street or sidewalk, will be required to obtain a permit from City Hall.”

This is aimed at that big run that was held on Thanksgiving Day where hundreds of people attended. No one knew about this event until it was happening. No street was ever closed, so no permit was needed.

Someone should have had to get something to hold an event like this. Thanks.

Robert Mozol
Alderman 15th District
