Re: Proper and legal Children Playing, Speed Limit, and or Deaf Child signage on the 800 and 900 block of Jackson Street.

The residents of the 800 and 900 blocks of Jackson St. are requesting signage at both the Douglas Ave end of Jackson Street and the La Salle Street end of Jackson street for Children Playing because there are no parkways on this street. There is a family with hearing impaired children so they are asking for deaf Child signs at each end of the block. They also would like the appropriate speed on Jackson Street to be posted on each end of the street since this is a two way street which is often used as a short cut.

Please refer this communication to the Racine Traffic Commission and any other appropriate committee.
