Donnie,

RE: Captain's Cove – 6th Street Facility

First Choice Pre-Apprenticeship Training Program has been informed that the above mentioned facility is vacant and would request your consideration to utilize.

There are a number of upcoming projects within the Racine/Kenosha and Milwaukee corridors that we feel with the proper hands-on training (ladder and scaffold, form building in the garage area, etc.) our participants would obtain the basic construction skills necessary to be considered for employment opportunities.

- ◆ Walker site – construction of Pointe Blue
- ◆ WE Energies
- ◆ I-94 reconstruction
- ◆ Other major City, County, State and private developments

Laborer's International Local 113 of Milwaukee and the Operative Plasterers' and Cement Masons' Local 599 have volunteered to instruct the participants in Portland cement and ladder scaffold/grade checking/Hwy.

Please consider our request to utilize this facility. Enclosed for your information is a detailed listing of the activities that would be conducted on this property.

We thank you in advance for your consideration and look forward to hearing from you soon.
