Public Works and Services Committee

FROM: John Rooney
Assistant Commissioner/Engineering

RE: Proposal for City of Racine Sewer System Data Models Phase II

We have received a proposal from AECOM Technical Services for the City of Racine Sewer System Data Models, Phase II. This proposal is to commence with the second phase of the City's sewer system data model project. This project expands the approved pilot study across the GIS for storm infrastructure which includes access to CCTV video, PACP coding, an network analysis. It is in the not-to-exceed amount of \$45,000 and funding is available in Account No. 104.989.5420, Storm Sewers – Misc. Loc.

If the Committee agrees, the appropriate action would be to approve the proposal and authorize the Mayor and City Clerk to enter into the agreement.
