Mayor Gary Becker and City Council  
City Hall  
730 Washington Ave  
Racine, WI 53403

Dear Mayor and Council,

Due to low Lake Michigan water levels it has become necessary for Racine Yacht Club to perform dredging on the south side of our slip basin. We expect to remove 2500-3000 cubic yards of material using hydraulic dredging in order to retain continued use of our boat slips.

RYC would like to enter into an agreement with the City of Racine/Public Works Department to use a portion of the area south of the Water Treatment Plant to spread, dewater and temporarily store dredge materials. Soil samples have been obtained and analyzed. Our permit for dredging is pending with the WDNR. Our intent is to perform dredging in the spring of 2008.

Please allow this your earliest consideration.

If you have any questions regarding this matter, please feel free to contact me at  
262-770-2921

Sincerely,

A handwritten signature in black ink that reads 'Mark Rode'. The signature is written in a cursive style with a vertical line to the left of the name.
