Re: Drainage Issue at 3320 Daisy Lane

The City Engineer's Office prepared an estimate for a storm sewer extension from the intersection of Daisy Lane and Shadow Lane to 3320 Daisy Lane. Typically, the private property drainage matters are the responsibility of the private property owner, and the cost for the sewer extension is borne by the property owner.

The estimated cost of the storm sewer extension in the public right-of-way is \$12,000. There will be additional cost to extend this on to the private property.
