RE: Loading Zone Time
Refer to Traffic Commission

We presently have a rented loading zone on the fourth street side of our building at 400 Main St.

The present sign prohibits public parking before 6pm. This sign was put in place last year replacing a previous sign that read no parking anytime.

Our primary reason for this loading zone is for our delivery business. Our delivery hours are from 11am to 10pm seven days a week.

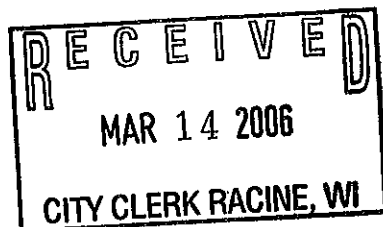

Because the downtown parking situation is so tight, opening the loading zone to the general public after 6pm makes it nearly impossible for our delivery people to find space to park in the evening. They leave our restaurant with as many as ten food orders making it very difficult and time consuming for them to make timely deliveries if they cannot park near our business.

Because our situation is unique, we are requesting that this sign be returned to No Parking Anytime.

Thank you for considering our request.
