Assistant Commissioner of Public Works/Engineering

Re: Acceptance of Wisconsin DNR Grant for Water Quality Planning (Non-Point Source  
Pollutant Modeling), Grant Control No. 2011-014

We are requesting authorization to accept a Wisconsin DNR Grant for Water Quality Planning (Non-Point Source Pollutant Modeling). This modeling would complete a city-wide analysis to identify opportunities where structural best management practices can be implemented to assist the City in reduction of Total Suspended Solids (TSS) per the requirements of our WPDES.

The total amount of the project is \$45,000, with 70% of the grant funding available in the amount of \$31,500 and a 30% local share of \$13,500. Funding for the local share is available in Account No. 104.992.540 – SLAMM Model (\$45,000).
