**Subject:** Communication for Council

Please submit for Wednesday's meeting:

RE: Communication from the Alderman of the 11th District requesting that Curtis Garner appear before the Committee of the Whole to present possibilities for improving the BUS system.

In light of the recent decision by Senator John Lehman to keep the BUS funded with property taxes, I spoke to Curtis Garner about how our BUS system can be improved. He had some excellent and innovative ideas that could improve service and increase ridership. I believe the council would benefit from hearing them and I would request that he appear before the Committee of the Whole to present these ideas to the full council.
