Subject: Item 07-0851 F & P Meeting of 7/9/2007

Good Afternoon All:

The Mayor has expressed intense interest in adopting **green** standards for the chemicals the city uses in its janitorial efforts. He has requested that I work on getting these standards implemented. The following sums up the effort thus far:

The Fire Department cleans its own facilities and is moving to green seal certified cleaning agents.

The City Hall janitorial contract (City Hall, Safety Building, City Hall Annex) expires at the end of March, 2008. Green seal certified cleaning agents will be specified when the contract is re-bid.

I spoke with Donnie Snow regarding item 07-0851. He recommends the item be received and filed. He will absorb the small up charge to move to green with his contractor, MJI, Inc. Parks department will specify green seal certified cleaning agents when the community centers are re bid in June, 2009.

Respectfully Submitted,

Sam J. Aiello
