**POLICY REGARDING THE  
REMOVAL OF SIDEWALKS**

If a request is received from a property owner to remove the sidewalk abutting their property, the request will be denied if:

1. The removal of the sidewalk results in a discontinuance in the sidewalk system.
2. Sidewalk is continuous along the street between two intersections.
3. It creates an unsafe condition by placing pedestrians onto a collector or arterial street.
4. It is a major pedestrian route serving a school.
5. The property is zoned other than residential.
