City Engineer

September 22, 2025

Alder. David Maack, Chairperson
Public Works and Services Committee
Racine, WI

Dear Alder Maack:

On September 19, 2025, the Purchasing Agent opened bids for Landfill Services-Transfer Station. This bid determined what landfill the City of Racine's municipal solid waste would ultimately be delivered to in 2026.

Materials Recovery Facility	Processing Cost	Total
GFL Emeral Park Landfill (Muskego)	\$39.50 / Ton	\$1,106,000
WM (Metro/Pheasant Run)	\$42.00 / Ton	\$1,176,000

The prices proposed will remain in effect through December 31, 2026. After the first term, the City has the option to either (i) enter into a multi-year contract, (ii) extend the contract on an annual basis based on a mutually agreed upon yearly escalator, or (iii) re-bid the contracts.

GFL Emerald Park Landfill LLC submitted the low proposal in the approximate amount of \$1,106,000. Staff recommends that the Landfill Services Contract be awarded to GFL Emerald Park Landfill at their price of approximately \$1,106,000.

Funding is available in the following accounts:

Org-Obj 14006 52215 Lanfill Services: \$1,106,000

Sincerely,

Ron J. Pritzlaff, P.E.
Assistant Commissioner of Public Works
