

COMMISSION MEETING SEPTEMBER 18, 2006

SUPPLEMENT TO AGENDA ITEMS

Volunteer Computer Work

Supervisor Bedard reported that the volunteers for putting cemetery records on computer software had backed out. A question was raised as to having non-volunteers do the work, Supervisor Bedard said that very little of the transfer work had been completed thus far.

Fence and Trees

Vilas Lund inquired as to when the final sectional of fencing would be completed. Supervisor Bedard said that because of construction on Kinzie Avenue which would not end until after November 17, 2006 the fence work was on hold. He said it might have to wait until next year.

Mr. Lund also asked for an update on the tree trimming and was told that a few had been removed. He was directed to Parks and Recreation-Jack Schumann for further information.
