To Whom It May Concern:

I have lived on the 2000 block of St Clair and Yout St. for 20 years. I walk my dogs down Yout St. to Main St almost every day. The reason why I am writing is because I requesting a 4-Way Stop sign on the corner of Yout and Erie. This is because in these past years, there has been many near misses. There has been a few times, where I was almost hit when walking my dog because the vehicles coming from east or west of Yout don't have to stop and turn onto Erie right in front of me. This is even after I have waited till the coast is clear. They come from the Stop Sign on Green and Yout and speed up heading east to Main St. Or they turn off of Main on to Yout and barrel down till they have to stop on the corner of Green and Yout. This is a 25 Mile Speed Limit area because of the School zone. I feel putting a 4-Way Stop would slow them down. Too many cars coming from North or South on Erie try to creep out to see if any cars are coming. Someone is always slamming on their brakes. You can hear it from where I live on St. Clair.

Thank you and I hope you consider my request.
