CITY ENGINEER

March 15, 2010

To : John Rooney
Assistant Commissioner of Public Works & Engineering
City of Racine

From: East Park Towers Association

Subject: Dangerous Intersection at the Corner of S. Main and 11th Street

Dear Mr. Rooney:

The subject location experiences a high volume of traffic during the week when Gateway Technical College is in session, and on Sunday morning during church services. Vehicles have trouble entering or crossing S. Main because it is difficult to see oncoming, north bound, traffic on S. Main due to parked cars along the east side of that street. Drivers are forced to enter almost into the center of the intersection before determining whether or not to proceed.

We are requesting that the Traffic Commission forbid parking on the east side of S. Main by moving the "No Parking Here To Corner" sign back to the south end of our property line. Several times in the past our association has brought this condition to the city's attention. Failure to take action we feel will result in someone getting hurt.

Thank you for your consideration to this request.

Yours very truly,

C.T. Boudreaux
