Subject: DPW Street Maintenance Cement Crew work

Debbie,

Would you please refer these communications to the Public Works and Services Committee on next Tuesday's agenda if possible?

1. I would like to see how many additional radius, curb and gutter, handicap radius approaches and street repairs could be done in house.
2. Also how many water main street repairs done with concrete and concrete and asphalt now done by outsourced private entities could be done by the City's DPW cement crew?

Thank you and God Bless,

Jim Kaplan
