I'd like to submit some changes to Ord. #66-518; Pyrotechnic Display Permit.

Under (a), we MUST include a time frame in it.

Under (b), we need to have more of a description for the operator other than just a "competent adult". If they can shoot professional sized fireworks, I'd suggest that they need some certification to do so.

Lastly, the \$50 fee is way too low for this. I'd suggest a minimum of \$200. Considering a ticket for illegal use is hundreds of dollars, \$50 is nothing to most people.

Thanks, Bob Mozol
