Make sure this gets put on the 3/27/18 as a referral from Ald. Perez to introduce a preliminary resolution. See below.

Thank you please schedule a public hearing and expedite if possible since it may affect the fire department. Thank you

The Field Office did look at it and it is beyond what we can repair or patch. It would be appropriate to have the public hearing for this alley.

Tom,

This is for DPW to look at for maintenance. If Ald. Perez wants it rebuilt, a public hearing needs to be held. He will have to submit a communication requesting it so a preliminary resolution may be introduced. It will be a spring 2019 PH for 2020 construction, if approved.

Subject: Significant alley pothole

Good morning Alderman Perez,

We have a significant pothole in the alley behind my home at 1230 Monroe Ave. This is the alley directly behind the fire station. It's approximately 6 feet long and looks like it goes down three layers of asphalt. See attached photos.

Thank you for your attention to the matter.
