Subject: PLLS Resource Library Contract

Dear RPL Trustees,

We have the 2026 Prairie Lakes Library System "Resource Library Contract" attached. The RPL has been the "resource library" for our library system since long before it was called Prairie Lakes even, and part of what that entitles us to is an annual payment for some of the services we render, which benefit the other libraries in the system--namely here, serving as the sorting hub for the system, via our automatic sorter, affectionately named "Oscar" (for its occasional grouchiness).

This is a standard process every year. The only noteworthy change is we were able to negotiate an increase this year for these services from a \$7,000 payment to \$10,000. I ask that the board approve this standard contract.

Any other questions, please let me know.

Thanks,

Nick
