Re: Amendment No.3 to Contract 2023017

Dear Alder Jones:

AECOM shall provide a dry detention basin design per the Mt. Pleasant Street Study Report submitted via email, dated August 1, 2023, for Alternative C, a 10-year, 24-hour event storm. The services include preparing a preliminary layout, with cross-sections of the dry detention within the footprint of the stream channel, located in the wooded area owned by Batten Airport, adjacent to SC Johnson hanger, and the GNC parking lot.

This contract amendment includes adding tasks for associated services to achieve and provide relief from a 10-year, 24-hour storm event upstream of the City's storm sewer collection system at the north terminus of Mount Pleasant Street, north of South Street. These services included in the amendment are; Dry Retention Basin Design, Phase 1 ESA, Geotechnical Evaluation, Construction & Contract Documents for Bidding, Construction Management Services, and Meetings.

The total cost of this amendment is \$88,900. Funding for this work will be appropriated in the 2024-33 Storm Water Utility Capital Improvement Program. If the committee agrees, the appropriate action would be to authorize the Mayor and City Clerk to enter into the agreement.

Sincerely,

John C. Rooney, P.E.
Commissioner of Public Works

Cc: Mayor Cory Mason
Paul Vornholt
Kathleen Fischer
Ron Pritzlaff
Ara Molitor
