730 Washington Ave  
Racine, WI 53403

Dear Racine City Traffic Commission,

I am writing to request your consideration for placement of a stop sign on Lindermann Avenue between Ohio and Indiana Streets.

I have been living on the corner of Lindermann Avenue and Oregon Street for six years and have witnessed the blatant disregard for the speed limit on Lindermann Avenue year after year. Now that I have three small children, I am no longer willing to sit by and watch careless drivers put them and the other families in this neighborhood in danger.

There is no stop sign on Lindermann Avenue from Ohio Street all the way down to Indiana Street. This serves daily as a drag strip for reckless drivers who put my children and the many other children who live in this area in great danger. Yesterday, June 4<sup>th</sup>, there was an accident on the corner of Lindermann Avenue and Virginia Street, while my family and I were playing in front of our house, due to an obviously speeding driver.

I ask you to please consider putting a stop sign on the corner of Lindermann Avenue and Illinois Street in order to make a safer environment for the families and children in our area. This would break up the long stretch where drivers exceed the speed limit substantially and cause traffic to slow down.

Thank you for your consideration on this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Olson", with a horizontal line extending to the right.

Bennett Olson  
4401 Lindermann Ave  
Racine, WI 53405
