John C. Rooney, P.E.  
Asst. Comm. of Public Works/Engineering

Item #09-3184

February 9, 2009

TO: Alderman Greg Holding, Chairman  
Public Works and Services Committee

FROM: John Rooney  
Assistant Commissioner/Engineering

RE: Proposal for Flood State Relationship Study

We have received a proposal from AECOM Technical Services for the Flood Stage Relationship Study in which they will investigate the availability of previous studies and modeling data that may be used to develop the stage/elevation relationship. This may include contacting SEWRPC, WDNR, and the National Weather Service. The data will be used to coordinate activities by the Department of Public Works before and during flood events and improve service to residents in the flood plain.. The study is in the not-to-exceed sum of \$11,500 and funding is available in Account No. 104.987.5420, Storm Sewers – Misc. Loc.

If the Committee agrees, the appropriate action would be to approve the proposal and authorize the Mayor and City Clerk to enter into the agreement.
