CITY ENGINEER

To Racine Mayor and Committee Council,

My name is Jamie Brands. My wife, DelMarie, and I have recently leased the building located at 1401 N. Main Street. The intended purpose for our business is a child care center. Easy safe access is very important for this type of business.

I am writing in reference to the parking located on the side of the building located on the north side of Barker Street. Currently there is open parking there. Because this entrance will be the main entrance to the child care center, Almost Home Academy II, I am requesting the three parking spaces be designated for 15 min parking only. This will give our clients plenty of time to drop off their children safely because they will not have to cross the street. It will also keep others from parking there all day and blocking the spaces from the parents. Our time of business will be 5:30am until 12:00am. Therefore we are requesting these to be permanent 15 minute spaces and not just until 6:00pm at night. This again will keep the parents safe and easy access when it is dark outside.

Enclosed are pictures of the area that we are requesting signage for.

I can be contacted at 262-960-0423.

Sincerely,

  
Jamie Brands
