Ron J. Pritzlaff, P.E.
Asst. Comm. of Public Works

March 11, 2025

Committee Members
Public Works & Services Committee
Racine, WI

Dear Committee Members:

As part of the 2025 Capital budget, DPW will be working on the exterior building envelopes of both the incinerator building and central heating plant. This project will further protect our building interiors from the elements.

The proposal by Industrial Roofing Services, if approved, provides plans, specifications, and estimates as well as construction related services.

Staff recommends approval of the professional services agreement submitted by IRS in the not to exceed amount of \$21,000. Funding is available in Org Obj 45040 57200. If the Committee agrees, the appropriate action would be to authorize the Mayor and City Clerk to sign the agreement.

Sincerely,

Ron J. Pritzlaff
Assistant Commissioner of Public Works
