Subject: Donation to City tree fund to offset airplane travel carbon emissions

To the Mayor and City Council:

My job requires me to travel extensively via airplane throughout the United States. I would like to donate money towards the purchase of trees for the streets of Racine to offset the carbon emissions of these trips I take throughout the year. While this might only amount to probably 25 trees a year, I believe it could have an impact on the quality of life for our residents.

I would rather donate locally than to a global fund.

Thanking you in advance,

Frank Tingle
