RE: Proposal for Pavement Inspection and Planning

We have received a proposal from AECOM Technical Services for the 2009 Pavement Inspection and Planning. The proposal is in the not-to-exceed amount of \$78,000. It includes updating the pavement and associated infrastructure asset data in the City's INFRA/PAVE database. It also includes tasks designed to continue to improve the integration of the City's pavement system with other mapping and information management systems. Funding is available in Account No. 101.130.5610, 2009 Professional Services.

If the Committee agrees, the appropriate action would be to approve the proposal and authorize the Mayor and City Clerk to enter into the agreement.
