

Hello

I am inquiring about a portion of the remnant of Wood road. The remnant exists in the City of Racine, the rest of Wood road was vacated in the Township of Mt Pleasant a number of years ago. I live on Pine Hill bl, and own the property west of the of what's left of Wood road. When I purchased my home, the front door of my house was to face Wood rd when it was developed.

That area of road was to join Pine Hill bl, Clairmont and Biscayne. I was told that Pine Hill had to be a thru street because of it's length, something to do with fire/emergency regulations.

I am requesting a portion of Wood rd to be vacated. I would like a portion of the vacated land to ensure the true front of my home would face the street if Pine Hill were extended. I would be willing to purchase it from the city.

I did acquire a map from the city of that property. I identified the portion of Wood rd I would like vacated on that map. I and am including it with this request. I'm not pretending to be a City Engineer, but I did draw in how it might work.
