

Item 1144-25 Alderman Weidner

Department Impacted: All

Modify the city HSA for all employees, including the library and water/wastewater utility, to be equal between resident and nonresident employees by splitting the difference.

Fiscal Impact: Because there are more non-residents and the rate would go up for non-residents, this amendment will cost an additional estimated \$25,000.

There is no funding source provided for this amendment and therefore the amendment violates 0567-25.
