Re: Joshua Glover Underground Railroad

The Historic Sixth Street Association in collaboration with the Burlington Museum and other organizations throughout the city and county of Racine has been working on the Joshua Glover Underground Railroad Project. The project consists of marking the historic sites and the publication of materials consistent with the sites for tourism and educational purposes. The project has been studied and researched for approximately three years and it is appropriate at this time to implement the historic markers.

Would you please refer this communication to the Finance and Personnel Committee for the consideration of \$25,000 for the implement stage of the Joshua Glover Underground Railroad Project? It is my belief that this is a historic moment in race relations in the city and county of Racine and deserves our attention as a city. Thank you for your attention and consideration in the preservation of history. If you have any questions please feel free to give me a call.

Thank you,

A handwritten signature in cursive script that reads "Keith Fair".
