CITY ENGINEER

This letter is for the Transit and Parking Commission:

I am the property manager for the Racine German Club at 701 Villa St. I understand we can request our bus stop be moved. The building is being vandalized by people who use this stop. It would only need to be moved closer to Park Ave. I think you would only have to move 1 parking meter, but you could add about 3 more by us. This would also give us more parking for our club members.
