Re: 2036 Case Avenue, Racine, Wisconsin

Greetings Mayor Becker:

I am shocked and appalled at what my family and I as well as our neighborhood are going through since last month. I know if I had not witnessed it myself, I would not believe it.

I live at 2034 Case Avenue, Racine, Wisconsin. The house at 2036 Case Avenue, Racine, Wisconsin has become a rental property owned by Derrick Martin.

The renter, a young man and the people who stay with him have three dogs. They let the dogs out to defecate and urinate in the yard, right in front of my kitchen and will not pick up the feces.

There are days when we can not open our doors for a swarm of flies attacking us. The usage of our backyard is out of the question due to the stench and flies.

Mayor Becker, I am seeking your help to eradicate this problem. The Health/Environmental Department is in a holding pattern. This matter needs to be eradicated immediately. This is unhealthy and plain nasty. It also deteriorates the value of the neighborhood.

Mayor Becker, I employ you to expedite the clean up of 2036 Case Avenue, Racine, Wisconsin. This should not exist in the City of Racine. It does not comply with "A good place to live".
