Subject: RE: Solar powered flashing stop signs

Alderman Smetana,

What is the nature of the request? Is there an issue with visibility of the existing stop signs or crash history? There is no requirement in the MUTCD for use of solar powered stop signs.

John C. Rooney, P.E.
City Engineer, Assistant Commissioner of Public Works
City of Racine

Subject: Solar powered flashing stop signs

Good Morning

I am sending you this communication to request solar powered stop signs at the corner of Walton & N Wisconsin and at the corner of Walton & Erie. If you have any questions please contact me.

Thank You
Alderman Steve Smetana
