

Chairman Holding,

Please consider this a formal request on behalf of Christopher Nelson and others in the area for a street light on the first pole south of 16th in the alley between Grange and Flett. This is the only pole in this alley without a light.

The lack of light has possibly contributed to a series of crimes in this alley. The Racine Police Department has indicated that increased lighting in this alley would be beneficial in preventing this crime. Mr. Nelson intends to install lighting on his garage, but something more sweeping for the area may be in order.

Please arrange for Mr. Nelson and me to be informed when this item will be appearing on the Public Works agenda. Thanks for your consideration in this matter.

Terry McCarthy
9th District Alderman, City of Racine
