Developer:	

Project Map Attached	☒
Flow Calculations Attached	☒
w/Developer's Agreement	☐
POE in Moritorium?	☐

Location	Nearest Intersection: Broadleaf Drive and Lone Elm Drive
	Development Acreage: Existing Residential Area
	Total Possible Acreage:

Land use	# of Parcels in Development:
	☒ Residential ☐ Industrial ☐ Commercial
	Development Acreage:
	Total Possible Acreage:

Technical	Pipe Material: PVC SDR 26 & PVC SDR 35
	Lenth of Extension: 310' of existing sanitary sewer relay
	Size of pipe: 15" to 21"

Sewershed	Sewershed Point of Entry Name: Central Lift Station to FM discharge MH at Dodge St and Michigan Blvd
	Allocated Capacity at POE:
	Current Average Flow at POE:
	Wet Weather Maximum at POE:
	Anticipated Development Maximum Flow: No new additional flows
	Anticipated Development Daily Flow:

Additional Information	This sanitary sewer work includes two existing 15" sanitary sewer mains. The first is
	proposed to be abandoned and the second to be up-sized to a 21" to account for both of
	mains flowing to the Crestview Lift Station. No new flows will be introduced from this
	project and the wastewater will follow the same path to the Racine Wastewater
	Treatment Facility as it does currently.
