Transitional Living Services Health Education: per Bobbi Fergus and Kim Wagner

On October 29, 2008 a program regarding nutrition was presented to a group of behavior health individuals. This program was presented at Transitional Living Services on Douglas Ave. Approximately 20 people were in attendance. The program included lecture, discussion, and activities; models were used to reinforce the information presented. At the end of the lecture, clients were asked to develop a meal that was healthy to eat using the teaching models. Several sessions of food bingo were played; this resulted in interaction between the clients and nurses. The next education session is scheduled to occur on November 19th at 10:30am. The audience has requested us to present on the topic of “healthy beverages”.
