Attn: Richard Jones  
730 Washington Ave  
Racine WI 53403

Dear Richard Jones:

I am pleased to announce that Wisconsin's Focus on Energy – Renewable Energy Program has chosen to support your Solar Electric Implementation Grant application. This grant will be funded at \$50,000 contingent upon the following:

- Receipt and approval of the Notice of Installation for Phase I of the City Hall Annex PV system (Grant #237)
- Receipt of the installation bid after a Focus on Energy Full Service Solar Electric Installer ([focusonenergy.com/fullserviceinstallers](http://focusonenergy.com/fullserviceinstallers)) has been chosen

The grant is awarded on a preliminary basis, pending receipt of a signed grant agreement with the Focus on Energy Renewable Energy program. You will be mailed a grant agreement once the above contingencies have been met.

If you are considering applying for another grant with Focus on Energy, we would like you to take the following into consideration. The Focus on Energy Renewable Energy Program will limit awards to \$500,000 to any individual or business during each fiscal year. This includes projects contracted between July 1, 2007 and December 31, 2008. There is no restriction on the number of contracts an individual or business can receive within the \$500,000 fiscal year limit.

Please contact Niels with any questions (see contact information below).
