RE: Parking regulations

Good morning Ms. Payne;

Our customers and vendors have requested that we clarify the parking restrictions directly adjacent to our property. We are located at the NW corner of South and Mount Pleasant Streets. We would like the city to consider posting 2-hour parking limits curbside between our driveway and the intersection of South/Mount Pleasant Streets.

Currently the signage along the West side of Mount Pleasant Street directly adjacent to our property indicates no parking anytime. Modifying the signage would reduce and abate any hazards and confusion associated with parking in our area.

Since we are not a "brick and mortar" retail operation, general parking is not necessary. However, there are times when the lack of curbside parking and signage causes vendors and customers to park dangerously on the street or in loading docks. The space of the requested signage is appropriate for short-term parking during normal hours.

I would be happy to discuss our request in more detail should that be necessary. Thank you for your consideration.

Fair Winds and Godspeed
