**Subject:** Street signs

Ms. Payne, Please add these requests as soon a possible to the appropriate committee.

On Sycamore and Linderman there is a sign that shows an arrow for a right turn. That was posted previous to the street being extended at Elisa Drive. I am asking for removal of the sign with the arrow.

There is also a "No Outlet" sign just north of the intersection of Sycamore and Linderman. There is in fact an outlet since the street was opened up on Elisa Drive. I am requesting that the sign be removed.

I am requesting a stop sign on Elisa Drive and Ostergaard Ave since there is no traffic control device at this intersection and the neighbors are complaining that since the road has been opened up there have been several potential crashes because of the lack of signage.

I am also requesting a road narrows sign at the intersection of Sycamore and Elisa Dr on both sides of the corner since this now thoroughly traveled blacktop road seems very narrow and possibly not a standard size road

Thank you, Blessings,
