

**BOARD OF HEALTH MEETING**  
**July 12<sup>th</sup>, 2011**

**DEPARTMENT: Community Health Programs**  
**PREPARED BY: Danielle Smith, PHN Coordinator**  
**MONTH: June 2011**

**HIGHLIGHTS**

<b>Date</b>	<b>Meeting/Training</b>	<b>Purpose</b>	<b>Outcome</b>
June 22, 2011	Meningococcal Disease Presentation	Educate participants on six serotypes of the disease and provide information on those that are vaccine preventable	Participants were provided information to educate clients and community members on meningococcal disease. PHN staff received education on new intradermal Fluzone available for clients aged 18-64.  The outcome of this meeting was positive in that it provides up to date evidence on diagnosis and prevention.
June 24, 2011	State of WI Breastfeeding Coalition Summit	Provide an opportunity for representatives from local coalitions to network with the intention of initiating a statewide coalition	Breastfeeding Peer Counselor received information to directly impact the local coalition by marketing and project initiatives.  The outcome of this meeting was positive as it will result in quality improvement measures.
June 27, 2011	A Day at the Racine Zoo	Allow families access to a low cost community resource and encourage positive social support	The outcome of this meeting was positive in that it resulted in parents providing education in an interactive manner to their children while also receiving information from staff.
June 28, 2011- June 29, 2011	WIC Interpreter Training	State mandated training providing staff with language proficiency and conversion assessment	A positive outcome that provided instruction on interpretation skills in relation to WIC clinic roles with an emphasis on nutrition.

Varicella	0	1	1	0	0	1							12	22	32	21	18

\* The number of HIV cases are separated by residence and displayed as City of Racine Health Department jurisdiction / Other Racine County municipalities.

\*\* 1 additional suspect case of Pertussis was reported and investigated in June 2011, determined to not be a case.

\*\*\* New latent INH cases are not reportable by statute, but are included in this report for statistical information.

For years 2009 – 2011, most data was gathered from WI PHIN AVR based on date received. For years 2006 – 2008, most data was gathered from the City of Racine Health Department Communicable Disease Data Base based on date of specimen collected. All data is provisional.
