

## General Contract Terms General

This Grant Agreement ("Agreement"), entered into by and between the Bureau of Transportation Safety ("BOTS") and City of Racine Police Dept. ("Grantee"), is executed pursuant to terms that follow.

**1. Purpose of this Agreement**

The Bureau of Transportation Safety, housed within the Wisconsin Department of Transportation's Division of State Patrol, serves as the administering agency for state and federal grants relating to transportation safety. The purpose of this Agreement is to enable BOTS to award grant funding to Grantee for eligible costs of the Grant Project ("Grant") undertaken as outlined in the project narrative and work plan. The funds shall be used exclusively in accordance with the provisions of this Agreement, as well as applicable federal and state laws and regulations.

**2. Term**

Work conducted under this Grant must occur within the federal fiscal year: October 1 to September 30. This Agreement expires September 30 of the federal fiscal year during which the Grant is conducted.

**3. Implementation**

Grantee shall be solely responsible for the design and implementation of the Grant as described in the project narrative and work plan. Grantee agrees to conduct the Grant in accordance with these plans as approved by BOTS.

Modification of the Grant shall require prior approval of BOTS. Any change in project coordinator, financial officer, authorizing official, addresses, or telephone numbers requires written notification to BOTS. If the work plan or other documentation must be changed after the contract is signed, Grantee must submit an amendment request via the WISE-Grants System. Amended activity may not commence prior to BOTS approval.

Failure to perform planned activity may be considered grounds for termination of funding.

**4. Audit and Maintenance of Records**

Grantee government subdivisions are responsible for obtaining audits in accordance with the Single Audit Act Amendments of 1996 (31 U.S. C. 7501-8507) and the Single Audit Requirements of 2 C.F.R. §200, Subpart F (A-133 Single Audit Requirements). If Grantee government subdivision is subject to a Single Audit, BOTS must be notified of the audit and subsequent results. If Grantee is subject to these requirements, it will verify that it is compliance with these requirements and that it has filed with the Federal Audit Clearing House. BOTS may take corrective action within six months and may require independent auditors to have access to grantee's records and financial statements. Documentation of costs shall be maintained for three years following final reimbursement. Reimbursement claim cost detail shall include a list of all personnel whose time is claimed; current billing period and year-to-date wages and fringe benefits paid to each person listed; all travel listed individually and broken out by transportation/mileage, meals, lodging, and related costs; all materials and supplies and contractual services, itemized, required to complete project activity. Employee time records for actual hours worked or percent of time dedicated to project activity are to be maintained by Grantee and made available to BOTS upon request with reasonable notice. Each budget item identified as "Other" shall be claimed separately.

**5. Monitoring by the State**

Grantee consents to monitoring by BOTS staff to ensure compliance with applicable state and federal regulations. Monitoring may occur on-site and will require access to original versions of employee payroll information, citations, and other materials related to the implementation of this grant.

**6. Payment of Funds by the State**

All highway safety projects are funded on a cost reimbursement basis. State or local funds shall be expended before federal reimbursement is made.

BOTS shall reimburse Grantee only for the actual hours worked, and for other eligible costs, and only if the costs are incurred in performing tasks identified within the grant application. Personnel costs shall be reimbursed on the basis of actual hourly salary and fringe rate(s) that have been verified and approved by BOTS, or on the basis of percentage of annual salary and fringe dedicated to project activity as described within the grant application. All expenses for which Grantee

## General Contract Terms General

seeks reimbursement must be documented in the Project Activity Reports.

**7. Equipment**

Tangible, non-expendable personal property having an acquisition cost of \$5,000 or more, with a useful life of greater than one year, that is purchased in whole or in part by Grantee using funds awarded as part of this Agreement must be justified in the project narrative or work plan and approved by the NHTSA Regional Office in writing before initiating the acquisition of the equipment. Each item shall be tagged, inventoried, and monitored until the federal interest is released. Tangible, non-expendable personal property having an acquisition cost of less than \$5,000, and budgeted as materials and supplies, will also be monitored. Grantee must inform BOTS in writing when equipment is no longer used for the purpose for which it was acquired. Grantee's procurement of property under a grant will follow the same policies and procedures used for procurement from its non-federal funds, provided their procurement procedures follow the requirements for procurement standards set forth in federal law in 2 C.F.R. §§200.318 general procurement standards through 200.326 contract provisions. Each grantee receiving traffic safety funds must maintain written property management standards that comply with the requirements for property standards set forth in federal law in 2 C.F.R. §§200.310 through 200.316. These requirements include, but are not limited to, the maintenance of accurate property records [2 C.F.R. §200.313(d)(1)]. Such records will include a description of the property; a serial number or other identification number; the source of funding for the property (including the FAIN, if applicable); indication of with whom title is vested; acquisition date; cost of the property; percentage (at the end of the budget year) of federal participation in the cost of the project for the federal award under which the property was acquired; location, use, and condition of the property; and ultimate disposition data including the date of disposal and the sale price of the property. Grantees will institute maintenance procedures adequate to keep the property in good condition.

**8. Print and Audio Visual Materials**

Grantee shall submit all materials developed under this Agreement to BOTS for approval of content and style prior to final production and release. All video materials intended for general public viewing must be close-captioned. Grantee shall credit the Wisconsin Department of Transportation Bureau of Transportation Safety and the National Highway Traffic Safety Administration on all such materials. Grantee may not copyright any portion of materials produced under this Agreement.

**9. Program Income**

Program income is gross income derived by Grantee from Grant-supported activities. Grantee will report program income on reimbursement claims, stating whether the income is retained or credited as a reduction in federal share of project expenditures. If retained, such income may be used only for highway safety activities and is subject to audit by BOTS.

**10. Additional Requirements Where Funds Are Expended on Law Enforcement**

- A. Grantee agency certifies that it has a written departmental policy on biased-based policing, or that it will initiate development of one during the grant period.
