CITY ENGINEER

We, the home owners of Kings Circle, so that we may make a more informed decision, request that a cost analysis of asphalt vs. concrete vs. alternative surfacing, describing the initial cost, as well as maintenance costs, be done before we vote in favor of, or against, the proposed concrete repavement project. Results of the cost analysis can be either sent to Kirby Timm at 5134 Kings Circle in Racine, WI 53406 where they will be presented in a home owners meeting, or may be presented to the Kings Circle home owners in a public meeting, provided that we are properly informed of when the meeting is held.
