

# **LISTING FOR NEW or REPLACEMENT BUS SHELTERS**

July 18, 2012

The following locations are priority locations for new or replacement bus shelters based on ridership and travel generators at or near the location.

Three different sizes have been ordered based on demand. They are: 7' X 14' shelters for locations with high demand, 4.75' X 10' standard size shelters, and 4.75' X 7' small three-sided "canopy" shelters where limited space is available.

The locations are grouped by size. Jurisdiction or Aldermanic District is listed following each location. Many locations straddle Aldermanic Districts or municipal boundaries.
