To Whom it May Concern.

I am writing this proposal to get permission to stencil the storm drains surrounding Gilmore Middle School. This project will be a way for the students to meet curriculum criteria while servicing the community. I have made arrangements with the Volunteer Center of Racine to use a copy of the stencil that they have used in years past. This activity is planned for the first week of June.

Thank You,

Catherine Collins
8th Grade Science Teacher
Gilmore Middle School
