RE: Proposal for Osborne Boulevard Sewer Evaluation

We have received a proposal from Earth Tech for the Osborne Boulevard elevated sanitary sewer evaluation. The proposal is in the not-to-exceed amount of \$19,530. It includes Earth Tech walking the entire length to the City limit, documenting the location, type, and extent of potential and existing erosion problems within the ravine. They will determine what causes the erosion in the ravine, and will provide recommendations to remediate the existing problem and prevent future erosion. Funding is available in Account No. 287.988.5310, Sanitary Sewer-Variou Locations.

If the Committee agrees, the appropriate action would be to approve the proposal and authorize the Mayor and City Clerk to enter into the agreement.
