City Engineer

September 13, 2024

Alder. Mollie Jones, Chairperson
Public Works and Services Committee
Racine, WI

Dear Alder Jones:

On February 6, 2024 the City of Racine entered into an agreement with Waste Management for Landfill Services at their Metro Landfill (Metro RDF). The agreement stipulated that the cost per ton tipping fee is \$41.00 through December 31, 2025.

The proposed Amendment One to this contract simply adds Waste Management's Pheasant Run Landfill (RDF) as an additional option for tipping municipal solid waste. This Amendment is a "NO COST" amendment, simply adding an additional facility for disposal. All tipping fees will remain the same as is stipulated in the original contract.

If the Committee agrees, the appropriate action would be to approve Amendment 1 to the contract with Waste Management.

Sincerely,

Ron J. Pritzlaff
