

**BOARD OF HEALTH MEETING**  
**July 13th, 2010**

**DEPARTMENT: Community Health Programs**

**PREPARED BY: Teri Hicks, Director Community Health Programs**

**MONTH: June 2010**

**HIGHLIGHTS**

<b>Date</b>	<b>Meeting</b>	<b>Purpose</b>	<b>Outcome</b>
6/3/10	Social Media Training	To assist public health agencies in expanding their knowledge and use of social media tools.	The CHP Director and the RHBHF Coordinator obtained skills that will assist them in creating new electronic media tools to advertise the department's home visitation programs. Many of the skills learned can be executed into free web-based programs that will serve to outreach younger populations that utilize electronic media.
6/8/10	Maternal and Infant Collaborative	To collaborate with community maternal and infant health providers.	Several individual agencies were in attendance. The meeting allowed for agencies to share updates regarding their programs and services. Discussion occurred around inviting additional agency representatives. The Health Department will again coordinate the next meeting which is scheduled to occur in September. The outcome of this meeting was positive.
6/23/10	Healthy Foods Workshop for the Racine Healthy Births Healthy Families Program	The Workshop objectives were to educate moms on: the benefits of breastfeeding, teach families how to make nutritious baby food, and to encourage healthy eating, the use of Farmer's Market coupons through WIC.	Seven adults, five infants, and five children attended the workshop. The families were observed eating the salad and stated they would make the fruit salad at home. Many families stated that they are going to be using the Farmers Market for fresh foods to start to eat healthier daily. Participants completed an evaluation at the end of the workshop. All feedback received was positive.

**PROGRAM: Community Health Programs**
