Subject: WR 3552906 Request for new easement

Hi Bob,

Please receive this as a formal request for an easement over lands owned by the City of Racine, commonly known as "The Herbert F. Johnson Memorial Park". This easement is to serve the City's facilities at the municipal golf course and associated buildings. The new easement will be adjacent to one previously granted except in the area north of the parking lot where it will steer well clear of the row of large trees per the request of yourself and John Finer, the golf course Superintendent. This easement is known as an "As-Built" easement where the final sketch for the recorded document is generated after construction.

Please find attached a .pdf document, including the easement to be signed and notarized, and a general sketch depicting the proposed route and improvements.

As always,

Tim Dekker
